

October 3, 2016

Dear Valued Customer,

It is with great pride that I announce our company's new focus on growth in the European market. In the past several years, we have concentrated our efforts on servicing the markets in North America, South America and through-out Asia. With over 350 customers worldwide, we are expanding our efforts in Europe to become a true global supplier with full support to our international customers.

Bay Plastics Machinery located in Bay City, Michigan, leader in strand pelletizing technology since 1997. BPM has a rich history dating back to 1961 when Tony Forgash Sr. started manufacturing strand pelletizing systems under the name JETRO Corporation. With over 50 years of industry experience, we pride ourselves in quality craftsmanship, custom design, and engineering. Our research and development team is continuously working to find new ways to help improve your process and offer the latest in technology.

Bay Plastics Machinery is a company with a dedicated focus on strand pelletizing systems. Our product offering includes manual strand lines, self-stranding wet cut waterslide systems, dry-cut waterslide/conveyor systems and water free pelletizing. We specialize in micro & long glass fiber pelletizing with equipment specifically designed for these applications. As a company focused on supporting our customers in all aspects of pelletizing, we also supply spare parts and technical support for all makes and models of pelletizers including; CONAIR, CONAIR JETRO, SCHEER, AUTOMATIK, CUMBERLAND, RIETER etc...

One of our steps in expanding service in the European market we would like to announce the addition of SPS | Solids Process Solutions to our list of professional sales representatives.

SPS | Solids Process Solutions located in Amersfoort, The Netherlands will be the local sales representative covering all of BeNeLux. In the next few weeks, we will be announcing additional sales representatives that will be responsible for territories through-out Europe, along with our local service, support, and rotor sharpening centers.

If you have any questions, please feel free to contact me at +1 989 671 9630, or Rob van Buitenen of SPS | Solids Process Solutions at +31 646 32 54 64 or rob@SPSsolutions.nl

With Kind Regards,

Jeff Forgash
